SUMMARY OF AGENDA

National Vacuum - Inducon Drive – Site Plan Review. Reviewed Site Plan for the construction of a 100'x200', 1 story metal building, to be used as office / warehouse. The applicant submitted required information over the past week up to and including at the meeting to satisfy outstanding conditions. The applicant hopes to have all remaining requirements met for the next Planning Board meeting to obtain Site Plan approval.

Action: No action taken.

Driftwood Suites - 2754 Niagara Falls Blvd – Site Plan Review. Reviewed the Site Plan for the construction of a 20 unit hotel with parking. Additionally, an indoor pool to be constructed on the end of an adjacent building that is associated with the property owner's hotel complex of buildings. The applicant came before the Planning Board on May 3rd, 2017, with a sketch plan for the demolition of a 1 story hotel room structure on the other side of the motel complex, replaced with the construction of a 3 story hotel structure. That plan is on-hold. The applicant is considering the purchase of a 3 acre parcel south of the proposed project. The applicant submitted a document addressing each outstanding condition on the review results from their last appearance before the Planning Board. This document was very useful and was appreciated by the Planning Board.

Action: Motion made by M. Germann, second by S. Eberwein to schedule a Public Information Session for September 19, 2018 at 6:30 p.m.

Voting Results: Yeas: Garrow, Germann, Eberwein, Polek, Proefrock. Nays: none. Abstentions: none. Motion carried.

Borrego Solar Systems – 2469 Lockport Road – Site Plan Review. Reviewed the Site Plan for the proposed construct of a 6.1 Mw ground mounted utility grade solar energy system. The project has received a variance from the Zoning Board of Appeals to address the north array requirement to have a 50' setback from the utility corridor along the south, and the setback is currently at 20'. The applicant requested a landscaping plan waiver due to the distance of the project from the road. The Planning Board did not entertain the request as landscaping and the visual aspects of the project are major concerns for the residents opposed to the project. The applicant stated that the house and 3 barns on the property will be removed. The Site Plan review ended with allotted time remaining so a couple members of the public were permitted to speak regarding the project. It is anticipated that at the applicant's next appearance before the Planning Board, the Special Use Permit and Site Plan approval will be voted upon.

Action: Motion made by M. Germann, second by D. Proefrock to put a hold on Site Plan approval until a PILOT is worked out with the Town.

Voting Results: Yeas: Garrow, Germann, Eberwein, Polek, Proefrock. Nays: none. Abstentions: none. Motion carried.
